## SPANDAN 2K24

The AY 2023- 2024 holds a special place in the hearts and minds of everyone at our college, as it marks the maiden Annual Day celebration and sports events in the college campus and at a huge magnitude too. The provocations were plenty; beginning with the conduction of Sports Events was a targeted challenge to prepare Courts and Grounds for all the Indoor and Outdoor games. Off course the management and Principal were exceptionally supportive and motivating to us, that we could succeed in the Dream Project “SPANDAN 2K24” with the consistent handwork and dedication of all Teaching and non-teaching Staff members and students.

Warm regards,

Prof. Atish N. Waghmare

## दोस्त

एक दोस्त त्याच्या दोस्ताला : हॅलो ! कसा आहेस ?

दुसरा दोस्त : मी मस्त आहे .

पहिला दोस्त : मित्रा एक काम आहे .

दुसरा दोस्त : अरे मग ते काम आधी लवकर करून टाक. ते झाल्यावर आपण बोलू. आधी काम महत्वाचे..

## परीक्षा

पप्पू 5 मिनिटात पेपर देऊन जाऊ लागतो..

शिक्षक :- का रे पप्पू .....पेपर मधल काही येत नाही का?

पप्पू - तसं नाही सर..... मला उद्याच्या पेपर

चा अभ्यास करायचा आहे... म्हणून लवकर चाललोय.

## शिक्षा

विनोदराव : काय हो वसंतराव, तुमच्या मॅडम सकाळी सकाळी तंबोरा घेऊन कुठे गेल्या?

वसंतराव: सेन्ट्रल जेलमध्ये! तिच्या गाण्याचा कार्यक्रम आहे ना.

विनोदराव: अस्सं होय, सरकारने कैद्यांची शिक्षा आणखी कडक केलीये वाटते...!

## शॉपिंग

चिंटू: काल तुझा मूड ऑफ का होता माझ्याशी बोलताना,  
आणि आज एकदम मूडमध्ये?

पिंटू: काल यार हिने वीस हजार साड्यांवर उडवलेत

चिंटू : मग आज मूड ऑन कसा

पिंटू: आज हि त्या साड्या घेऊन तुझ्या घरी दाखवायला गेलीय.

## शिक्षकांची भेट

काल बऱ्याच वर्षांनी माझ्या शाळेत गेलो.

सुदैवाने काही शिक्षकांची भेट झाली.

मी अतिशय नम्रपणे व दाटलेल्या कंठाने त्यांना म्हणालो...

“आज मी जो काही आहे, तुमच्यामुळे आहे” लगेच दोघेजण म्हणाले ...

“हे बघ, तू आम्हाला दोष देऊ शकत नाही.

आमच्या परीने आम्ही शक्यते सर्व प्रयत्न केले होते.”

## पहिले प्रेम

तुझ्या नाजुक चेहऱ्याला, उन्हाणे जेव्हा छेडले,  
पाहतांना चेहरा तुझा तेज होते जळालेले.  
पाऊलवाटा, तापलेले धरती सारी उन्हासोबत  
भांडत भांडत, तु जात होती घरी  
तुला कोमेजलेला चेहरा बघुन , विचार आला  
मनात .  
तुला सावलीत ठेवण्यासाठी सुर्याला , विकुण  
टाकावे क्षणात.

## आयुष्य

आयुष्यातले काही काळत नाही  
कधी कधी शांत दिसणारा दिवाही जळत नाही,  
सावली देणारेच करतात करार उन्हशी पाझरणारे डोळेच  
खेळतात जिवाशी  
सोबत असणारेच तसे दूर असतात,  
पाऊलवाटच गुरफटून टाकतात  
वाऱ्याची तक्रार पानांना करता येत नसते  
नियतीचे गणित कधी मांडता येत नसते  
आयुष्यात तसे नसते काही बेतलेले  
आयुष्य एक उत्तर प्रश्न ठाऊक नसलेले.

One Day , all of us will get seperated from each other. We will miss our conversation of everything & nothing & dreams we had Days , months and years will pass until this contact becomes Rare.

One day, our children will see our pictures and ask "Who are these people?"

And we will smile with invisible tears because Heart is touched with a strong word and you will say,

## शायरी

तेरे साथ से सीखी है नर्म मिजाजी वरना  
पत्थर दिली मेरी बहुत मशहूर थी पहले

उसे पाने की ख्वाहिश से ये लगता है  
वाकई ख्वाब बहोत ऊंचे हैं हमारे

तेरे बग़ैर मुझे कोई चारा नहीं  
और तुम्हे कुछ ख्याल हमारा नहीं

आये दिन तो तुम मसरूफ हो जाते हो  
क्या 24 घंटों में कोई वक़्त हमारा नहीं

उसने दो चार कर दिया मुझको  
ज़हनी बीमार कर दिया मुझको  
क्यों नहीं दस्तरस में मेरे तू  
क्यों तलबगर कर दिया मुझको  
उससे कोई सवाल मत करना  
उसने इनकार कर दिया मुझको

उसने छोड़ दिया है मुझे फोन करना  
ग्रँहम बेल तुम्हारा आविष्कार रयेगा गया

सादा सी तबियत मेरी अब बहुत शोखं हो गई है  
गुलाबी होंट, शरबती आंखें और तेरा अंदाज देख कर

वहम ही रहा के तुम हो दिलदार  
शराफत दिखते जैसे हो तुम शरीफ

जहां जाते वाह आंखे लड़ाते हो  
ये सफेद कपड़ों के पीछे कम काले छुपते हो

जो हमसे है जले उन्हें होना तो रख है

# COLLEGE DIARIES

JUST dropping here a note from my college diaries;

'COLLEGE' whenever I hear this word, feels so nostalgic. The bunches of memories just passes by my open eyes like a short film full of dramas, emotions, fightings and entertainment. So the definition of college will be like 'the place where you get to explore the things, to be yourself, to make mistakes and to make lifetime memories. During surviving the college days I got the thing clear that college life is less for study and more for vibing with friends, chilling in college campus, chasing your college crush, bunking lectures, spending hours in college canteen.....and these never ending things to do. It feels like 'kal ki hi baat hai' when I entered the college and the time has passed like the time taken by the falling star.

The best thing happened to me in college life is that got a chance to make a relation which make my college life amazing, happening and some extra, the relation called FRIENDSHIP. So we can say it like, 'a happening college life is directly proportional to the animals called friends.' These animals have a unpaid job to make fun of you, to deteriorate you, to irritate you just for the sake of to make their soul satisfied. The funny moments spend with my 'Yara's' make my eyes watery and the emotional one makes me laugh like a crazy.

There are lots of things (other than studies) I got to learn during college days which are surely helping me to improve my personality, helping me to lasting my relations, making new relations, to present myself confidently in front of varieties of personality.....and so on. I learnt lots of things at this place and also learnt lot from the silly mistakes that have done in my past.

I think, it is totally fine to make mistakes, all I want to say is just learn from them. Take your decisions wisely. These are all my learnings from my college life.

## **Managing Diabetes: The Role of Pharmacy in Patient Care**

Diabetes is a chronic condition that affects millions of people worldwide. It requires careful management to prevent complications and maintain a healthy lifestyle. In the field of pharmacy, professionals play a vital role in supporting individuals with diabetes.

Pharmacists are well-equipped to provide valuable guidance on medication management for diabetes. They can educate patients about the proper use of insulin and oral medications, ensuring adherence to prescribed regimens. Pharmacists also help monitor blood glucose levels and provide recommendations for adjustments in medication dosages.

In addition to medication management, pharmacists can offer lifestyle counseling to individuals with diabetes. They can provide advice on healthy eating, exercise and weight management all of which are crucial in diabetes management. Pharmacists can help patients understand the importance of monitoring blood glucose levels and offer guidance on self-monitoring techniques. Furthermore, Pharmacists can assist in the selection of appropriate glucose monitoring devices and educate patients on their proper use. They can also provide information on the latest advancement in diabetes management such as continuous glucose monitoring systems and insulin pump therapy.

Collaboration between pharmacists and other healthcare professionals, such as physicians and dietitians, is essential in providing comprehensive care for individuals with diabetes. This multidisciplinary approach ensures that patients receive the best possible support and guidance for managing their condition effectively.

In conclusion, pharmacists play a crucial role in the management of diabetes. Through medication counseling, lifestyle guidance, and collaboration with other healthcare professionals, they contribute significantly to the overall well-being of individuals with diabetes.

# PHARMACEUTICAL EDUCATION IN INDIA: PAST, PRESENT, FUTURE

**INTRODUCTION:-** Pharmacy is the art and science of manufacturing and dispensing of drugs prepared by natural and synthetic sources, and using them for the treatment and prevention of diseases. Pharmacy encompasses various professional skills, such as knowledge for drug synthesis, quality control tests, detection of degradation products and storage of pharmaceutical products as well as dosage form preparation, route of administration, drug-drug and drug-food/herbal interactions.

## THE LOOK IN THE PAST:-

Pharmacy as a concept was practised in India from an Ancient period. For example, the Ayurveda and Siddha systems of medicine contain extensive literature on the selection of sources of natural medicines, and compounding of those medications. The first undergraduate {UG} course in pharmacy was started at Benaras Hindu University around **1932** by professor MAHADEVA LAL SCHROFF, fondly called the "Father of pharmaceutical Education in INDIA".

## THE CURRENT SCENARIO:-

Currently, there are more than **1500** institutions offering programmes across the country. The pharmacy degree programs offered in India include:-

- .Diploma in pharmacy [D.Pharm]
- .Bachelor of pharmacy [B.Pharm]
- .Master of pharmacy [M.Pharm]
- .Master of science in pharmacy [MS (Pharm)]
- .Master of technology in pharmacy [MTech(pharm)]
- .Doctor of pharmacy [PharmD]
- .Doctor of philosophy in pharmacy [PhD]

## THE FUTURE AHEAD:-

The growth of the pharmaceutical industry will, of course, depend on the employment of able and competent pharmacists. However, apart from the pharmaceutical industry-related employment, practicing pharmacists are also supposed to cater to the needs of general public and patients.
